Specialised Activities

Research, development and innovation

Continuing our past, the Elevo Group continues to invest in Research, Development and Innovation. We have developed several projects which have contributed significantly to increase our know-how and to be at the forefront of our field's knowledge.

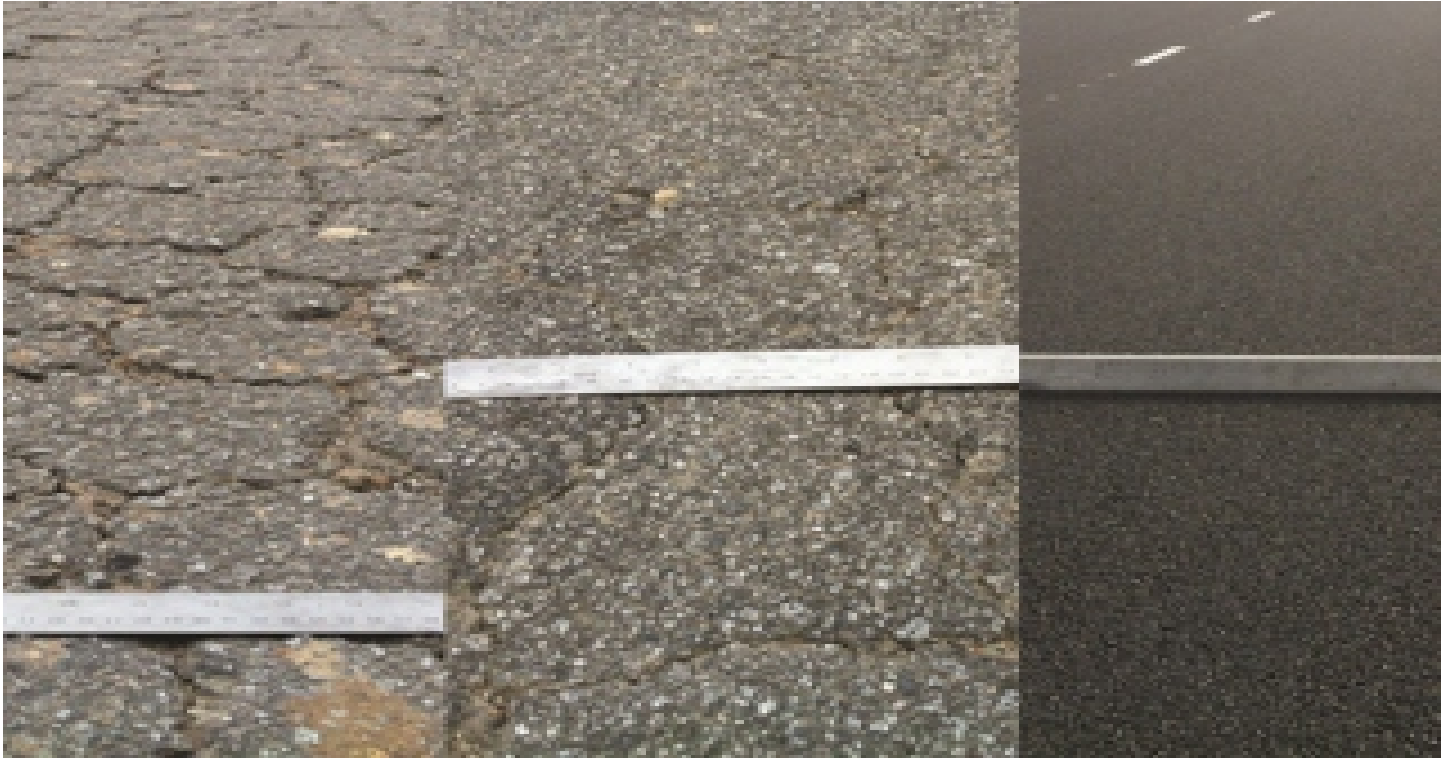

We continue to invest. We want to evolve at the speed that makes the world change. We want to reach beyond, we want to do more and, sustainably, achieve further.

Asphalt Mix with High RAP Content
